

WH5 CLASSIC VOCAL MICROPHONE

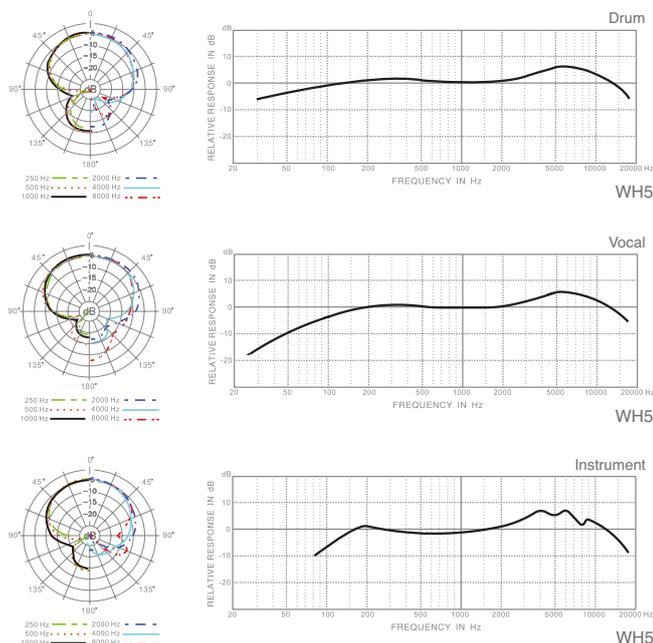

Description

The Superlux WH5 dynamic microphone is a trilogy concept microphone with 3 different capsules built-in so that the user can select one of the capsules for the preferred sound. Classic appearance is integrated with the latest microphone technology for artists who demand an unique "oldies" appearance with "goodies" music performance. The external 3-position capsule switch control selects the right capsule for drums, instrument or vocal pick up.

Features

- 3 different frequency response capsules in one body. Always a sound available to meet your demand.
- Typical application for percussion, instrument, and vocal. Classical appearance, latest technology.
- On / off switch and 3-position capsule selection control. Internal shock mount for reducing handling noise.
- Tilt limit and position set mechanism for 45° forward and 80° backward setting.
- Chrome polished finish for long-term operation and collection.

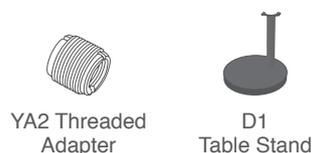

WH5 Frequency Response (Supercardioid)

Specifications

Type	Dynamic
Polar Pattern	Supercardioid
Frequency Response	Drum: 30 – 10,000 Hz Vocal: 50 – 16,000 Hz Instrument: 20 – 12,500 Hz
Sensitivity	Drum: -62 dBV/Pa (0.8 mV) Vocal: -54 dBV/Pa (2.0 mV) Instrument: -55 dBV/Pa (1.8 mV)
Output Impedance	200 Ω
Min. Load Impedance	200 Ω
Max. SPL	Drum: 147 dB Vocal: 134 dB Instrument: 134 dB
Finish	Chrome plated
Connector	XLR3M
Dimensions	Ø80 × 76.5 × 200 mm (Ø3.15" × 3.01" × 7.87")
Net Weight	750 g (26.4 oz.)

Included

This information sheet contains important information for the safe use of the product. Read and follow the safety and handling instructions given here. Please keep this information sheet for future reference. If you pass on the product described overleaf, please enclose this information sheet.

Safety instructions

Intended use

This device converts acoustic signals in electrical signals. Any other use or use under the conditions excluded here is considered improper and can lead to personal injury or property damage. Neither the manufacturer nor the distributor is liable for damage resulting from improper use.

Choking hazard for children

 Make sure that plastic sleeves, packaging, etc. cannot get into the reach of babies and small children. Do not allow children to use electrical devices unsupervised. They could loosen parts of the product, then swallow them and choke on them!

Place of operation

The device must not be used

- ▶ at particularly high temperatures or humidity
- ▶ in particularly dusty or polluted places
- ▶ in places where it can be exposed to moisture

General handling

To prevent damage, never use force when handling the product. Never immerse the product in liquids. Just wipe it with a clean, dry cloth. Never use liquid cleaners such as benzene, thinner, or flammable detergents to clean the product.

Disposal

Old devices

Devices with this label are subject to the current EU directive on waste electrical and electronic equipment (WEEE directive) and may not be disposed of with household waste, but only via a suitable disposal company. Ask your local authority or your specialist dealer about your options for proper disposal.

Packagings

Environmentally friendly materials have been selected for the packaging and are to be recycled. Do not just throw away plastic sleeves, packaging, etc., but recycle them. If necessary, note the instructions and labels on the packaging.
