DM8008

8 Channel Output Box with
ULTRANET Connectivity

- 8 channels of analogue outputs over ULTRANET
- Standard Euroblock connectors for analogue audio connections
- High quality 24-bit D/A converters with 48 kHz sample rate
- Rugged 1U rackmount chassis for ease of installation
- Auto-ranging universal switch-mode power supply
- 10-Year Warranty Program*
- Designed and engineered in the U.K.

Digital music and sound distribution requires specialised tools to ensure the desired content arrives at the proper zone(s) in all its pristine sound quality. The DM8008 Channel Output Box, a rugged 19" 1U rack-mount chassis designed specifically for the ULTRANET environment, provides 8 channels of analogue output making it ideal for use in hotel, house of worship, casino, and myriad other professional audio applications. Up to 7 DM8008s may be connected in series on a single ULTRANET cable for the ultimate in signal routing versatility

Connectivity

DM8008 utilises our proprietary ULTRANET networking, which allows users to transmit up to 16 independent channels of 24-bit audio via ULTRANET-enabled devices over CAT5 cabling with RJ45 connections. The digital signal is converted internally to analogue by the DM8008's high quality 24-bit D/A converters, which offer a 48 kHz sample rate. Outputs are provided in the form of standard balanced analogue Euroblock connectors. A convenient switch on the rear panel allows users to select between channels 1 - 8, or channels 9 - 16.

Rackmount Chassis

Designed for shelf mounting or installation in conventional 19" rack systems, DM8008's chassis houses an auto-ranging universal switch-mode power supply (100 - 240 V ~) that allows rock-solid performance anywhere in the world.

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own MUSIC Tribe factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous Warranty program.
