

e906

Microphones | evolution

Cat. No. 500202

General Description

The supercardioid e 906 instrument microphone was especially designed for guitar amplifiers, but it is also an excellent choice for percussion and brass instruments.

Technical Data

Pick-up pattern	supercardioid
Frequency response	40 – 18,000 Hz
Sensitivity (free field, no load, 1 kHz)	2,2 mV/Pa
Nominal impedance	350 Ω
Min. terminating impedance	1 kΩ
Dimensions	∅ 55 x 34 x 134 mm (∅ 2.17" x 1.34" x 5.28")
Weight	140 g (4.94 oz)

Features

- Lively, full sound
- Very fast attack
- Flat shape of microphone body perfect for guitar amps
- Three adjustable sound characteristics (bright, normal, smooth)
- Hum compensating coil
- Rugged metal body
- Delivery includes: 1 e 905 microphone
MZQ 100 clamp
pouch
User Manual
